

REQUEST FOR TRAINING FUNDS

We accept requests for funding training workshops year round, but please contact us well in advance. To be considered for funding, training workshops must demonstrate that they conform to the following criteria:

1. The workshop will teach participants a new and important suite of skills or concepts in ecology or evolutionary biology.
2. The workshop will ensure participation from across Canada. Workshops that cater only to a local audience are not appropriate for CIEE funding.
3. Workshops proposed by CIEE member institutions will receive priority for funding.
